

# *Bone-A-Fide Animal Chiropractic*

October 19, 2021

To: CE Program Reviewers,

I was recently invited to attend Liberated Horsemanship's Gateway to Hoof Care Clinic to evaluate the relevancy and suitability of the information for an AVCA continuing education program. The information was beyond my expectations. It is a program I believe every horse professional should hear, including veterinarians and animal chiropractors. The information is vital not only to the practitioner working with horses, but also useful to pass along to clients. I was invited to participate in the proposed CE program to help foster communication between the clinic instructors and participating animal chiropractic practitioners. I am excited to have the opportunity to do so. I wholeheartedly endorse the proposed CE program.

Respectfully,

Anna Huber, DVM, CAVCA
